# ON THE MOVE – CO-CREATING THE CHANGE

12<sup>th</sup> SWISS ENERGY AND CLIMATE SUMMIT

The facts regarding the challenges in the fields of energy, climate and the environment are on the table. The requisite technologies are available and energy policy guidelines have been drawn up. The Paris climate agreement and the Energy Strategy 2050 are there to guide us into the future. Now that the well-meaning strategies have been drawn up and promises made, all that is left to do is to put them into action. The driving force behind a successful energy and climate future will be the companies themselves. The task now is to overcome barriers, break down walls and move forward with the aim of making a difference together and helping to shape tomorrow's world.

The motto of SwissECS 2018 is **"ON THE MOVE – CO-CREATING THE CHANGE"**. The 12<sup>th</sup> instalment of the leading conference for energy and climate issues in Switzerland is dedicated to the opportunities for change and will outline the next steps to be taken in the quest for sustainable development, for example in the fields of transport and mobility.

## DEEP DIVE SESSIONS

INDIVIDUAL OPTIONAL PROGRAMME

Dive. Go deeper. Discover. Taking place in parallel to the conference, the deep dive sessions on four relevant future topics offer high practical relevance, promote a dialogue between the participants and the speaker, and are guaranteed to provide added value for everyone in attendance.

TRANSPORT  
& MOBILITY

ENERGY

CIRCULAR  
ECONOMY

LIVING &  
WORKING

## LEYLA ACAROGLU

UNEP CHAMPION OF THE EARTH, SCIENCE AND INNOVATION 2016

**"DON'T LET TODAY'S  
SOLUTIONS BECOME  
TOMORROW'S PROBLEMS."**

Leyla Acaroglu is an entrepreneur, prize-winning designer and sociologist. She has set up two design agencies, in New York and Melbourne, and the experimental knowledge lab "UnSchool". As a "doctor of change", she encourages others to see the world in

unaccustomed ways and shape a sustainable future with clever design work. In 2016, the United Nations Environmental Programme voted her the year's "Champion of the Earth", honouring her creative thinking and achievements in the areas of knowledge and innovation.

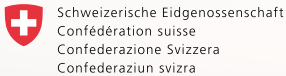

! The SwissECS 2018 will now be held as a one-day conference. Visitors will benefit from the focused knowledge and concrete added value – all of which will be provided in a short period of time.
