

Canada

Business Guide

Compiled by:

The Embassy of Switzerland

Updated by:

Swiss Business Hub Canada

Ottawa, Montreal, February 2018

ARRIVAL AND DEPARTURE

As a Swiss national, you will need a valid Swiss passport to enter Canada when visiting. In addition, Canada has implemented a new electronic security screening plan. **Starting March 2016, you will have to apply for the so-called electronic travel authorization (eTA) to visit or transit Canada by air.** You can apply for the eTA [here](#). The eTA application fee is CAD 7.00 and must be paid by credit card (Visa®, MasterCard®, American Express®). Once approved, the eTA is valid for five years or until your passport expires, whichever one comes first. Your passport has to be valid for the duration of your planned stay in Canada. If you are not a Swiss national or have other nationals travelling with you, please check with the [Canadian Visa Office](#) for the latest entry requirements.

As a visitor you are generally admitted to Canada for up to six months from the original date of entry. Extensions may be arranged with the federal authorities within Canada. As a visitor you are not allowed to work, set up a business or study in Canada without authorisation. You are also not eligible for provincial health coverage and are advised to obtain medical insurance for the period of your stay.

If you wish to apply for a study permit or a work permit, you must submit your application to the [Canadian Visa office in Paris or to the Visa Section of the Embassy of Canada in Vienna](#). Businesspeople and investors wishing to establish themselves in Canada should consult the Canadian Visa Office of the Canadian Embassy in Paris for the latest entry requirements: www.canadainternational.gc.ca/france/visas/index.aspx?lang=eng&view=d

LANGUAGES

Canada has two official languages: English and French. The majority of the French speaking population is located in Quebec with minority representations in New Brunswick and Ontario. The federal government has undertaken an active role in encouraging and facilitating bilingualism throughout Canada, particularly in public service and in public institutions.

Quebec is different from other Canadian provinces in several respects, most notably because 81.2 % of its population predominantly speaks French. The Charter of the French Language imposes certain obligations for using the French language at work and in commerce, education, legislation and professional orders. You may find more information on the website of *L'Office québécois de la langue française*:

www.oqlf.gouv.qc.ca/

If you are looking for a certified translator or interpreter, you may check the online directories of the provincial associations that are listed below:

[Association of Translators and Interpreters of Alberta \(ATIA\)](#)

[Society of Translators and Interpreters of British Columbia \(STIBC\)](#)

[Association of Translators, Terminologists and Interpreters of Manitoba \(ATIM\)](#)

[Corporation of Translators, Terminologists and Interpreters of New Brunswick \(CTINB\)](#)

[Association of Translators and Interpreters of Nova Scotia \(ATINS\)](#)

[Association of Translators and Interpreters of Ontario \(ATIO\)](#)

[Association of Translators and Interpreters of Saskatchewan \(ATIS\)](#)

[Ordre des traducteurs, terminologies et interprètes agréés du Québec \(OTTIAQ\)](#)

PUBLIC HOLIDAYS

The following is a list of statutory national holidays:

Statutory and generally recognized holidays:

New Year's Day ¹	January 1
Good Friday ²	
Easter Monday ³	
Victoria Day ¹	Monday on or preceding May 24
Canada Day ¹	July 1
Civic or Provincial Holiday ⁴	1st Monday of August
Labour Day	1st Monday of September
Thanksgiving Day	2nd Monday of October
Remembrance Day ⁵	November 11
Christmas Day ¹	December 25
Boxing Day ^{1,4}	December 26

¹ When these days fall on a Sunday or Saturday, the next working day is considered a holiday.

² Business remains open in Quebec

³ Business remains open in most provinces, e.g. Ontario (but stays closed in Quebec)

⁴ Holidays in the provinces and territories www.statutoryholidays.com/

⁵ On Remembrance Day members of the armed forces are commemorated. Many people wear artificial poppies on their clothes in the weeks before Remembrance Day. However, this is a federal statutory holiday. Ontario, Quebec, Manitoba and Nova Scotia — do not recognize Remembrance Day as an official paid statutory holiday.

HEALTH AND INOCULATIONS

A visitor to Canada is not covered by the Provincial Health Insurance Programs. A current Swiss health insurance policy may or may not cover a visitor sufficiently. It might be advisable to buy additional medical insurance as the healthcare costs are very high in Canada.

The Public Health Agency of Canada provides updated general information and travel health notices:

www.phac-aspc.gc.ca/alert-alerte/h1n1/faq_rg_h1n1-eng.php

TIME ZONES

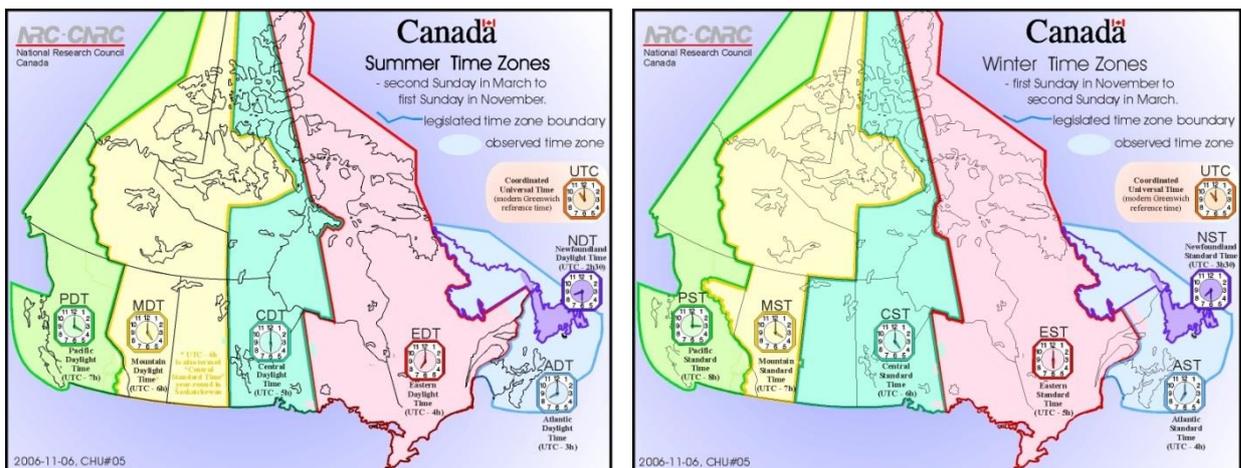

If you are planning on scheduling meetings with Canadian business partners, whether online or in-person, you should keep in mind that Canada is divided into six time zones. Clocks follow the North American standard for Daylight Saving Time and are turned forward by one hour on the second Sunday in March and turned back on the first Sunday of November.

Time difference between Switzerland and

Montreal / Ottawa / Toronto: - 6 hours

Calgary: - 8 hours

Vancouver: - 9 hours

For an overview over the different time zones, visit: www.nrc-cnrc.gc.ca/eng/services/time/time_zones.html

ELECTRICITY SUPPLY

110 volts, 60 hertz.

METHODS OF PAYMENT

Acceptable payment methods are cash and credit cards. In fact many Canadians even use a credit card to pay for smaller amounts. If there is a minimum amount for credit cards, for example in smaller independent grocery stores, it is usually indicated. If you are planning a trip to Canada it is also recommended that you bring your ATM card (EC-Card) in order to access your bank account to make cash withdrawals.

TRANSPORTATION

BY AIR

Due to Canada's large size, people often travel by plane to cover the long distances in a shorter amount of time. Canada has a highly developed air transportation system that includes 10 major international airports and over 300 smaller airports. With some 443,000 flights a year and over 41 million passengers annually, Toronto Pearson is Canada's largest and busiest airport. Canada's two main airline carriers are Air Canada and Westjet as well as a few regional Airlines such as Porter.

From March 27, 2016 until October 29, 2016 Swiss International Airlines will operate daily flights between Montreal and Zurich. In the winter SWISS flies five times weekly.

<https://www.swiss.com/CH/en>

Air Canada offers nonstop flights between Zurich and Toronto, as well as between Montreal and Geneva, with same-plane service continuing on to/from Toronto. The carrier's Star Alliance partner, Swiss International Air Lines, offers seats on a codeshare basis on this route.

www.aircanada.com/en/

Porter, a regional passenger carrier based at Toronto City Centre Airport, is serving Toronto, Ottawa and Montreal and many other destinations.

www.flyporter.com

Average travel times by plane:

Montreal – Ottawa: 2h 40min (40min in air + 2h travel time to/from airport, security, lineups)

Montreal – Toronto: 3h 15 min (1h 15min in air + 2h travel time to/from airport, security, lineups)

Montreal – Quebec City: 2h 50min (50 min in air + 2 hours travel time to/from airport, security, lineups)

Toronto – Vancouver: 7h (5h in air + 2 hours travel time to/from airport, security, lineups)

BY SEA

Canada is a maritime nation with access to three oceans: the Pacific, the Atlantic and the Arctic. It also has the world's longest inland waterway open to ocean shipping: the Great Lakes/St. Lawrence Seaway System. In addition, 300 commercial ports and harbours handle many goods shipped in and through Canada.

In the east, shipments are divided among several ports, including Montreal, Halifax, Port Cartier, Sept Iles/Pointe Noire, Saint John and Quebec. Canada's largest port is in Vancouver. It is also the main terminal for goods being shipped to the Asia-Pacific region. The Port of Prince Rupert is located just below the Alaskan Panhandle and boasts the shortest sailing distance from North America to Pacific Rim countries.

Despite the cold climate in winter, many of Canada's deep-water ports are open year round. Modern container facilities at major ports, such as Halifax, Montreal and Vancouver, connect with inland container trains to ensure rapid movement of goods throughout North America. The Port of Montreal is Canada's leading container port because of its inland location, as well as its rail and road links to major markets in central Canada and the US northeast and mid-west.

The St. Lawrence Seaway - a marine highway as long as the Atlantic Ocean is wide - is vital to Canada's international competitiveness, as it provides a direct route to the industrial heart of North America. You will find more information about the Seaway on the website of the Chamber of Marine Commerce: <http://www.marinedelivers.com/about-us>

In British Columbia and the Atlantic region, ferry boats are very common means of transportation for both vehicles and passengers. You may obtain more information about routes, schedules and fares from ferry companies that operate routes in these regions, for example on the website of BC Ferries: <http://www.bcferrries.com/>

BY ROAD

Canada has nearly 900,000 kilometres of public roads. The 8,030-kilometre Trans-Canada Highway is the country's major east-west route, linking all 10 provinces. The road network includes a large number of crossing points with the US, 18 of which are major trade gateways. If you plan to drive in Canada you must have a valid driver's license. It is advised to get an International Driving Permit (IDP) in Switzerland before coming to Canada. An IDP will give you a translation of your license into French and English. For more information about driving in Canada visit <http://www.cic.gc.ca/english/newcomers/after-transportation-driving.asp>

In recent years, the increase in truck traffic generated by the growth in Canada-US trade and just-in-time manufacturing have placed added demands on the road system and have focused greater attention on road safety, including the quality of infrastructure. As a result, Canada invests a large amount of money on road maintenance and upgrades.

More and more, infrastructure upgrades are the result of public-private partnerships that make the most of private-sector technological and operational expertise. A case in point is the Confederation Bridge between the provinces of Prince Edward Island and New Brunswick, the world's longest continuous marine-span bridge over ice-covered water.

Average travel times by car:

Montreal – Ottawa: 2h 30min (2 h + 30 min for traffic)

Montreal – Toronto: 5h 30min (5h + 30min for traffic)

Montreal – Quebec City: 2h 55 min (2h 25min + 30min for traffic)

BY RAIL

Canadian railways are the backbone of Canada's freight transportation system, providing the most economical method of moving containers and bulk commodities over great distances. Canada's freight railway industry is dominated by two major players: [Canadian National Railways \(CN\)](#) and [Canadian Pacific Railways \(CPR\)](#). National passenger services are provided by Via Rail, and tickets can be booked directly on the [Via Rail](#) website or at the train station. It is often cheaper to buy tickets in advance. If you are planning to travel by train you should be aware that Canada does not have high-speed rail. In fact Canada's Via Rail is operating on the freight line tracks of CN and CPR, which means that passenger trains often have second priority. However, if time is not an issue, traveling by train is very comfortable and economical. Also, passenger trains are usually equipped with Wi-Fi so that you can work while travelling.

Average travel times by train:

Montreal-Ottawa: 1h 55min

Montreal-Toronto: 5h 25min

Montreal – Quebec City: 3h 17min

COMMUNICATION

Country Code for calls from **Switzerland to Canada**: 001 (+ area code and phone number)

Country Code for calls from **Canada to Switzerland**: 00 41 (+ area code and phone number)

CELL PHONES AND WIFI

Providers maintain cell phone service coast-to-coast across Canada. However, actual coverage may vary outside urban areas. It can be patchy, particularly in rural areas. Canada's cell-phone rates are amongst the highest in the world. Many hotels and airports offer free Wi-Fi.

BUSINESS HOURS

General office business hours are from 9am to 5pm, Monday to Friday, while government offices are usually open from 8.30am to 4.30pm. In terms of retail business, stores are usually open on Sunday. While operating

hours may vary, as a general rule, shopping malls open from 10am-6pm (in some cases 9pm) Monday to Friday, 9.30am to 6pm (or in some cases 9pm) on Saturday and 12pm - 5pm or 6pm on Sunday. Most banks are open for business from 9am to 4pm, with some branches even open on Saturdays and Sundays.

BUSINESS PRACTICES

TIPS FOR INITIATING BUSINESS CONTACTS AND FIRST MEETINGS

It is recommended to respond immediately to requests and invitations: In North America, business is conducted at a very fast pace. Decisions should always be made 'yesterday', so 'strike while the iron is hot'. Service is a very important issue. It is actually as important as the quality or technology of the product. It is not always the 'best' product that wins - the best company does. Also, it is often relatively easy to get a first meeting. However, this does not necessarily mean that the counterpart will follow up later on. It is therefore recommended to discuss concrete follow-up action items during the first meeting. In addition, Canadians are generally less interested in a long presentation about the company and its history. It is recommended to focus on the benefits for the Canadian partner as they want to know "what's in it for them". Finding common ground is very important. Promotional material (including websites) should be designed for the Canadian market. Once a new company has been established in Canada, it is also recommended to hire local personnel who have a good understanding of the market and know the business culture. Unless otherwise requested, pricing should be in Canadian dollars. It is highly recommended, when doing business with French speaking customers, to provide all business related services in French.

BUSINESS CARDS AND COMPANY WEBSITES

As a rule, business cards are exchanged at a first meeting. Not being able to present a business card at a meeting could be viewed as unprofessional by your Canadian contact and may hurt your credibility as a legitimate and serious business partner. When you receive business cards at a conference table, place the business cards in front of you to refer to the correct names of your contacts during the meetings. In Quebec, business cards should be both in English and French.

Potential business partners will most probably visit your website before you meet. An English/French language menu will be helpful and signals that you are serious about entering into business with North America.

Forms of address, formality and informality, business attire: address your counterpart as Dr, Mr, Mrs, Miss or Ms. However, very soon after meeting you, your contact will usually suggest switching to a first-name basis. Nevertheless, this should not be mistaken as a sign that you have achieved an advanced level of intimacy. Do not hesitate to ask your contact how his/her name is pronounced correctly.

CONVERSATION

In general, Canadians enjoy laughing and appreciate people with a sense of humour. Usually, a compliment is a good choice as a conversation starter since it is common to compliment one another in Canada. This could include a nice remark concerning an achievement or about something they are wearing. Sports (especially "ice –

hockey” which Canadians simply refer to as hockey) or comments about the weather are usually very good conversation starters. Canadians will likely ask you about your first impressions of the country/city, which constitutes a welcome opportunity to exchange compliments. Try to avoid any discussions or jokes about race, religion, politics, sexual orientation or gender.

SMOKING

Smoking in indoor workplaces and public places is banned in all provinces and territories and at federally regulated buildings. In some jurisdictions, the law prohibits smoking in motor vehicles with passengers under 16. Shops are banned from displaying tobacco. In general, the tolerance towards smokers has become very low. In May 2016, Quebec banned smoking on restaurant and bar patios.

SALES TAX, TIPS, AND GRATUITIES

Retail sale prices indicated on merchandise tags and restaurant menus never include sales taxes. In most cases, the federal Goods and Services Tax (GST) of 5% and a Provincial Sales Tax (PST; rates vary from 0% in Alberta to 9.975 % in Quebec) or Harmonised Sales Tax (HST) (in New Brunswick: 10%, Newfoundland: 10%, Nova Scotia: 10% and Ontario: 8%), which combines GST and PST, will be added to any bill. Tips and gratuities for services are generally not included anywhere in Canada. A tip of 15% to 18 % is expected on restaurant bills. Not tipping would be considered extremely rude. Services by taxi, hairdresser, etc. are usually rewarded by a tip at the discretion of the person paying the bill. Always check whether a service charge was included in a restaurant bill, especially if paying for a group of people. Often the restaurant automatically includes a service charge for larger groups.

www.cra-arc.gc.ca/tx/bsnss/tpcs/gst-tps/menu-eng.html

TRADE AGREEMENT AND IMPORTING GOODS

Canada and the European Free Trade Association (EFTA) have concluded a Free Trade Agreement between Canada and the States of the European Free Trade Association (Iceland, Liechtenstein, Norway and Switzerland).

https://www.seco.admin.ch/seco/de/home/Publikationen_Dienstleistungen/Publikationen_und_Formulare/Aussenwirtschafts/Bilaterale_Wirtschaftsbeziehungen/fta-efta-canada.html

Under the terms of the Agreement, qualifying goods which originate in Switzerland enter Canada permanently duty – free, although applicable taxes will be collected (usually 5% Goods and Services Tax (GST)). These goods must be accounted for at time of release on a Form B3, Canada Customs Coding Form. The tariff treatment will be “24” and an Origin Declaration must be available.

www.cbsa-asfc.gc.ca/publications/forms-formulaires/b3-3.pdf

Goods entering Canada temporarily are usually documented on Temporary Admission Permit (Form E29B) or an ATA Carnet.

www.cbsa-asfc.gc.ca/publications/forms-formulaires/e29b.pdf

Under certain circumstances, the Canada Border Services Agency (CBSA) will require a security deposit on goods temporarily imported to Canada. These goods are normally documented on the Temporary Admission Permit (Form E29B).

www.cbsa-asfc.gc.ca/publications/forms-formulaires/e29b.pdf

At the time of exportation, goods granted temporary admission on a Form E29B or Carnet must be presented along with importer's/owner's copies of the appropriate documentation to CBSA for verification and certification. This presentation may occur at a CBSA office inland or at the port of export, depending on the circumstances involved and is necessary for you to receive a refund of any securities posted. Please note that the refund is not immediate.

Should you require additional assistance it is recommend that you contact the Border Information Service (BIS). You can access the BIS line free of charge throughout Canada by calling 1-800-461-9999. If you are calling from Switzerland, you can access the BIS line by calling either 001-204-983-3500 or 001-506-636-5064 (long-distance charges will apply).

www.cbsa-asfc.gc.ca/contact/menu-eng.html

contact@cbsa.gc.ca

SPECIAL FEATURES OF THE CANADIAN MARKET

The Canadian marketplace is unique and demands a solid and thorough preparation from the Swiss exporter. Canada, with 36.8 million inhabitants, is, in relation to its size, sparsely populated and there are striking regional differences. For this reason, marketing to Canadians can become more expensive per capita than it is in many other markets. Distribution costs are higher per capita due to the large, thinly populated countryside with a wide variety of climates, terrains, etc.

Although Canada's international trade is dominated by its strong bilateral relationship with the United States, Canada as a trading nation is making big efforts to promote its trade relations with other foreign nations.

Environmental issues and the need to reduce, reuse and recycle are important for many Canadians. They are also very concerned about social issues such as gender rights, pay equity, minority and animal rights. Therefore, environmental and social issues must be taken into consideration when dealing with the Canadian marketplace. Canadians are very conscious of what they are buying and are very much interested in reliable technical support and after-sales service.
