

# Global coverage, local service

**International expansion – It’s not just about opportunities, but also entails complex risks and increasing regulation.** Include seamless security, oversight and efficiency in your international insurance and pensions portfolio: with a forward-looking overall concept that is a perfect fit.

## Your partner – worldwide

AXA insures and takes care of you and your employees at all locations as comprehensively and reliably as in Switzerland. Unique local aspects and regulations are included in our development of an overall global concept and can be modified at any time. We also support companies with an international focus as a strategic partner of Switzerland Global Enterprise with tailor-made insurance and pensions solutions.

## Finding the ideal solution together

Different requirements take center-stage depending on the focus of your business. We develop your ideal solution starting from these three company profiles:

- 1. Exporting company:**  
The risks of non-payment by debtors and appropriate individual insurance
- 2. Companies with branches abroad:**  
Overall concept with uniform coverage worldwide
- 3. Companies with expatriates:**  
International insurance and pensions solutions as well as health insurance models

## Your requirements – nothing else matters

We develop a total solution tailored to you on the basis of your company profile – in line with your current requirements and compatible with your future objectives.

	<b>1. Exporting company</b>	<b>2. Companies with branches abroad</b>	<b>3. Companies with expatriates</b>
