# BERHALTER®
SWISS DIE-CUTTING

From Things to Value.

Intelligent IIoT Platform.
Enabling Customers to
Innovate Faster.

CUTcontrol™

CUTcontrol™ Digitalization

Predictive and Preventive Maintenance

Digitalization

With BERHALTER CUTcontrol™, a unique digital platform has been created to monitor the productivity and efficiency of the die-cutting machines. CUTcontrol™ assumes the role of support system and uses diagnostic tools for data analysis in order to increase the production performance. In addition, target-oriented service in combination with good spare parts management improves machine utilisation rates.

Key Figures

Our unique IIoT platform CUTcontrol™ provides the infrastructure for collecting and managing data streams. These data streams come from machines, options and die-cutting tools. CUTcontrol™ paves the way to the Industrial Internet of Things (IIOT) and is characterised by smart integration and a clear focus on die-cutting machines and their key performance indicators (KPI). **Intelligent swiss-made die-cutting technology.**
