

WATER AS INDIVIDUAL AS YOU ARE
THE WATER DRINKING REVOLUTION

LUQEL

WATER AS INDIVIDUAL AS YOU ARE

OUR HISTORY

TIME TO MAKE A STAND

White sand, blue sky, turquoise colored sea - and in between mountains of plastic bottles from the industrialised nations. This plastic waste polluting our oceans land, and drinking water drove our founder Josef Schucker to make a stand.

“Plastic waste harms our environment, and when eroded the micro and nano-particles of plastic can enter our bodies and cause us harm. There has to be a more sustainable solution to delivering drinking water.”

Josef Schucker

Visionary and founder of LUQEL

OUR TARGET

SAVE 5 BILLION PLASTIC BOTTLES

Plastic bottles of water take 450 years to erode. As it does micro and nano- particles of plastic enter into the eco-system. Into the water, into the fish and animals and into our bodies.

Removal of plastic bottles of water is our goal.

We provide pure water with naturally mineral salts, personalised to your taste. Improve your sustainability by drinking water from the mains and reducing emissions, plus the costs of production and transport of pre-packaged water. Provide your employees with mineralised drinking water, free-from impurities, but high on choice and personalisation.

THINK GLOBAL - ACT LOCAL

ENJOY YOUR PERSONALISED WATER
ANYWHERE IN THE WORLD AT
ANY LUQEL WATER STATION.

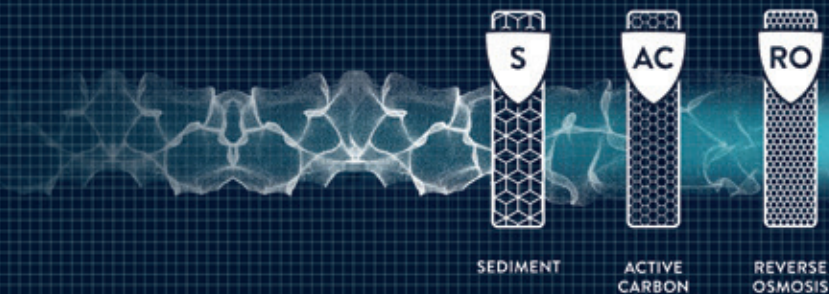

REMOVE THE NEED TO
PURCHASE, STORE, REFRIGERATE, RECYCLE AND HANDLE
PRE-PACKAGED DRINKING WATER.
