

swiss natural cosmetic laboratory

**labiocos**

# Our Excellence

## Bio Commitment

We are committed to developing and producing the purest quality of organic cosmetics under the highest quality standards ISO 22716:2007 (GMP) and certification levels (Cosmos, NaTrue, BDIH, Ecocert)

## Laboratory Excellence

Labiocos has 30 years of experience in the development of organic cosmetics. It was the first Swiss laboratory to achieve the ECOCERT certification of organic production. Situated in the idyllic Jura Region in the heart of the Swiss watch production area, quality, expertise, and innovation are our heritage.

## Passion for cosmetics

We are passionate for innovative organic cosmetics, using our wide choice of Swiss plant extracts, purest Swiss mountain spring water and cutting edge natural active ingredients.

# Company Organisation

Labiocos is a 100% affiliate company of the farfalla group

## FARFALLA

- 40 years of brand expertise in natural and organic total body care and essential oils.
- Certified according to NaTrue organic standards.

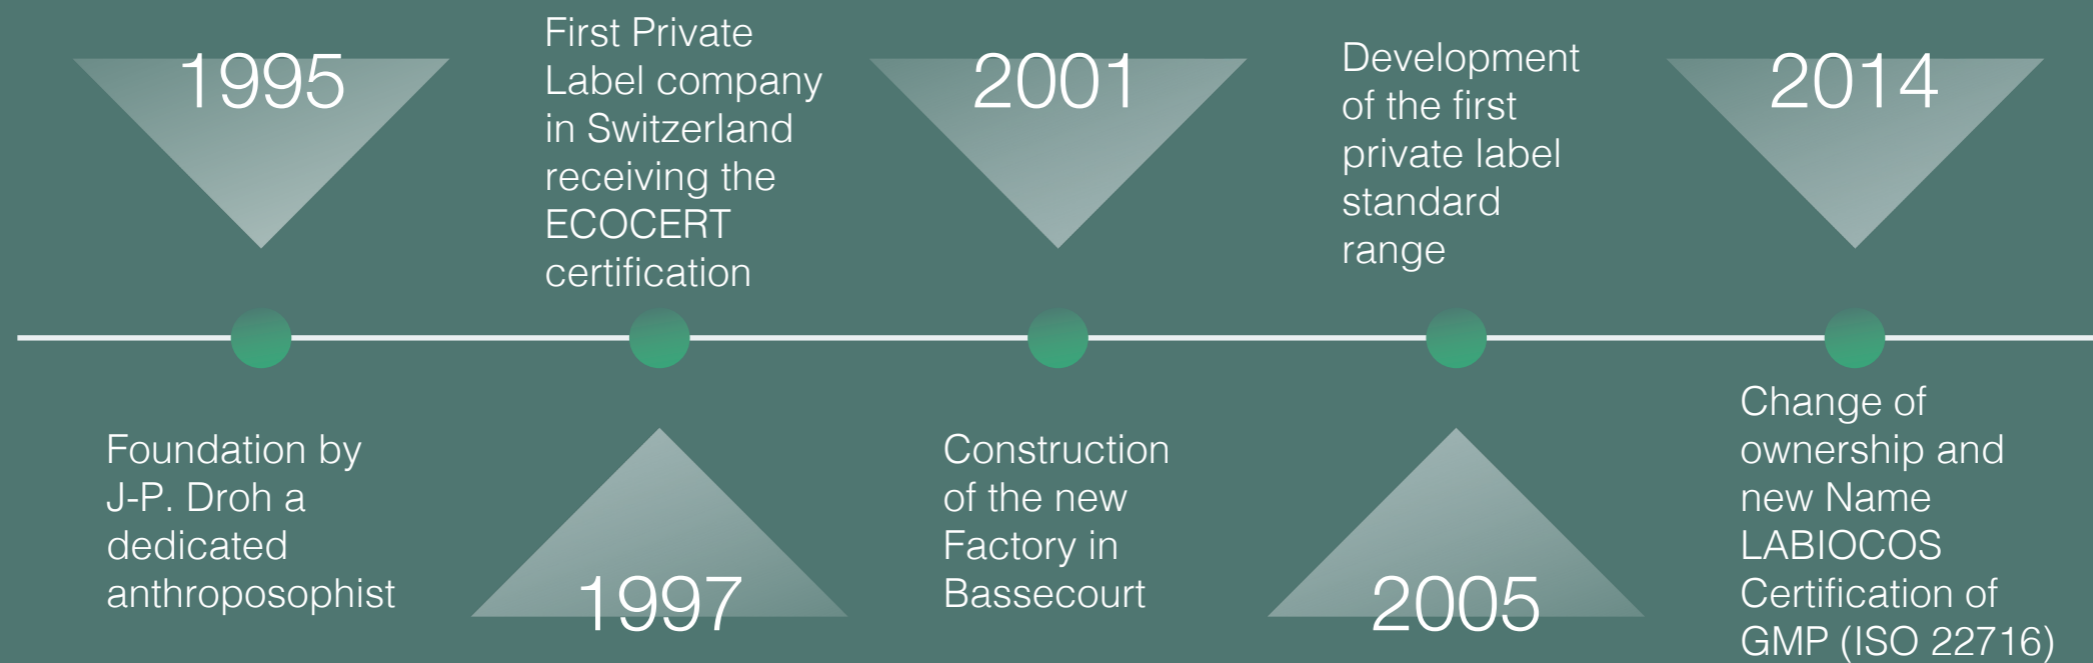

## LABIOCOS

- Over 25 years of experience in developing and producing natural and organic cosmetics.
- Certified according to GMP standards.
- Long expertise in private label tailor-made concepts.

# Company History

A rich history of competence and innovation

# Service Offering

Full Service / Production & Filling / Bulk Production

## Formulation

We are experts in organic cosmetics formulations. Whether you would like to develop new organic products for your brand or replace your current product line, we offer you custom-made innovative formulations as well as product testing (e.g. stability, challenge and patch tests)

## Quality

We comply with the highest quality standards such as ISO 22716:2007 (GMP) enabling us to maintain a continuous quality management system. At each level of the production process, we ensure strict quality assurance.

## Bulk Production

Our production plant is organized in an effective shop floor management system, which allows us to be highly flexible. We offer a wide range of face and body care products, starting at production volumes from 50kg for emulsions and 100kg for solutions per batch going up to batches of several tons.

**FULL  
SERVICE**

## Filling and Packing

We also provide full service solutions for products of all categories to be ready to market.
